

Manuel Martín-Lomas

PhD- University of Seville

Research Professor, CSIC

Vice-President, CSIC

*Director, Institute of Research
of Chemistry, (CSIC-Isla de
la Cartuja), Seville*

*Fellow of the Royal
Society of Chemistry, United Kingdom*

Scientific Director, CIC biomaGUNE

Manuel Martín-Lomas received his Ph. D. Degree in Chemistry from the University of Seville and did his post-doctoral work at the Biophysics Unit of Unilever Research (The Frythe, Welwyn, Hert, UK). He is Research Professor of the Consejo Superior de Investigaciones Científicas (Spanish Research Council, CSIC) and has held several directorial positions in that Institution where he became Vice-President from 1992 till 1996. He has been Chairman of the European Carbohydrate Organization (1995-1997) and Member of the COST Chemistry Technical Committee that first defined chemical research priorities in Europe. He is Fellow of the Royal Society of Chemistry, Member of the Real Academia Sevillana de Ciencias and serves as a member of the Editorial Board in several specialized journals. Most of his work has dealt with different aspects of synthetic and structural chemistry of biologically relevant carbohydrates. His main interest presently lies in the preparation and characterization of carbohydrate-based biofunctional nanostructures to investigate cell recognition, adhesion and signalling events.
